Gunjan Kawale

Data Engineer | SQL | ETL & Data Warehousing

Nagpur, Maharashtra, India | gunjanworkspace@gmail.com | linkedin.com/in/gunjan-kawale

PROFESSIONAL SUMMARY

Data Engineer with 5+ years of experience in SQL development, ETL processes, data warehousing, data migration, and workflow automation on financial-services projects (DFIN, ICICI Bank). Experienced in building and migrating Redpoint workflows and developing Azure Logic Apps workflows that call Azure Function App APIs and use Blob Storage, focused on data accuracy and consistency.

TECHNICAL SKILLS

ETL & Data Warehousing: Redpoint, SSIS, ETL Pipelines, Data Warehousing, Data Integration, Data Migration, Data Validation, Output Reconciliation

Cloud & Automation: Azure Logic Apps, Azure Blob Storage, Azure Function App API Integration, Workflow Automation

Databases: SQL Server, Oracle SQL

Development: SQL Queries, Stored Procedures, Query Optimization, XML/JSON, CSV/TXT File Processing, Debugging, Workflow Logging, Error Handling, Testing

Tools: Git, Code Reviews, Postman, Log-Tracking Dashboards, Copilot

PROFESSIONAL EXPERIENCE

OneData Software Solutions | Client: Donnelley Financial Solutions (DFIN) **Jun 2026 – Present**

Data Engineer

- Migrated 7–8 existing production workflows from Redpoint to Azure Logic Apps, rebuilding workflow logic and reconciling outputs against Redpoint to preserve existing automation behavior.
- Built a file-triggered workflow that processes CSV files, applies business rules using SQL stored procedures, archives input files, and generates two TXT output files.
- Developed scheduled Azure Logic Apps workflows that call Azure Function App APIs and use Azure Blob Storage.
- Configured triggers, SQL actions, API payloads, and workflow steps, mapping SQL query results to workflow variables.
- Implemented workflow-level and step-level logging, dashboard error tracking, and email notifications; investigated SQL timeouts in long-running workflows.
- Tested workflows, used Git for version control and code reviews, and supported deployment, documentation, and post-release monitoring.

Helson Software Solutions Pvt. Ltd. **Jan 2025 – Mar 2026**

Data Engineer

- Developed and optimized SQL queries to support data extraction, transformation, and processing.
- Contributed to ETL processes supporting data integration and data warehouse operations.
- Supported data migration activities, focusing on data consistency and accuracy during transfers between systems.

OneData Software Solutions | Client: Donnelley Financial Solutions (DFIN) **Jan 2023 – Dec 2024**

ETL Developer

- Built new Redpoint ETL workflows based on project and business requirements.
- Enhanced existing Redpoint workflows by adding new features and modifying workflow logic.
- Maintained and updated Redpoint workflows to support ongoing data processing requirements.
- Troubleshot workflow issues and validated expected results through testing.

Think Analytics India Pvt. Ltd. (Think360) **May 2021 – Nov 2022**

Associate – SQL DWH Development

- Designed and maintained data integration solutions using SQL Server, SSIS, and ETL processes.
- Optimized SQL queries for data processing and extraction.
- Supported data pipeline automation, data consistency, and data security.
- Contributed to data-driven solutions for clients, including ICICI Bank.

EDUCATION

Diploma in Advanced Computing (DAC) **Apr 2021**

C-DAC Sunbeam Institute of Information Technology, Pune | Grade: A

B.E. in Computer Science Engineering **2019**

Priyadarshini Institute of Engineering & Technology, Nagpur; RTM Nagpur University | CGPA: 6.48
